

ADEJUMO OLANREWAJU

Full-Stack JavaScript Developer

Lagos, Nigeria · (+234)9165210359 · olanrewajuadejumo56@gmail.com · github.com/AdejumoOlanrewaju · linkedin.com/in/olanrewaju-adejumo-47375328b

PROFESSIONAL SUMMARY

Full-Stack JavaScript Developer with 3+ years of experience building scalable web applications across the entire stack — from pixel-perfect frontends to robust APIs. Proficient in React.js, Angular, Node.js, Express, MongoDB, and Firebase. Experienced delivering solutions for clients in business, education, and SaaS sectors. Open to remote full-time roles and freelance projects with international teams.

TECHNICAL SKILLS

Frontend: React.js, Angular (Signals), TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Bootstrap

Backend: Node.js, Express.js, RESTful APIs, JWT Authentication, Socket.io

Database & Cloud: MongoDB, Mongoose, Firebase, Firestore

State Management: Redux Toolkit, Zustand

Tools & Deployment: Git, GitHub, Postman, Figma, Vercel, Render, Railway, Netlify

PROFESSIONAL EXPERIENCE

Full-Stack Developer (Freelance)

Various Client Projects · 2023 – Present

- Built full-stack web applications for clients across business, education, and SaaS industries, handling both frontend and backend development end-to-end
- Developed responsive, cross-browser-compatible UIs using React.js and Angular, integrating RESTful APIs and backend services built with Firebase
- Designed and managed MongoDB databases and Firebase/Firestore collections for real-time data handling and user authentication
- Collaborated directly with clients to gather requirements, define technical specs, and deliver production-ready solutions on time
- Deployed applications to Vercel, Render, and Netlify; managed version control via GitHub

KEY PROJECTS

Booking & Appointment System | ReactJS . MongoDB . ExpressJS . NodeJS

- Built an appointment scheduling web application for small businesses – Clinics, Salon, Consultants. Features Booking system, email notification, authentication and calendar UI. Live Demo here: <https://booker-sigma.vercel.app>

Tech Blogging Platform | Next.js · Tailwind CSS · Firebase

- Built a full-stack blogging platform with admin panel for creating, editing, and publishing posts — including user authentication via Firebase and a clean, responsive reading experience. Live Demo here: <https://telex-blog.vercel.app>

TelexZip — All in one Utility app | ReactNative . Expo . Nativewind

- Designed a utility application that allows users to compress videos and Images, converts image files to pdf and extract text from images. Available on Google Play Store here : <https://play.google.com/store/apps/details?id=com.telextech.snapkit>

Telex Chat — Full Stack Chat App | .Angular · Tailwind CSS . Firebase

- Designed a full stack chat web application with real time messaging, robust authentication, and clean UI. Live demo here : <https://telex-chat-ng.vercel.app>

Nova AI — SaaS Landing Page | React.js · Tailwind CSS

- Designed and built a modern dark-mode landing page for an AI-based SaaS product, focused on conversion-driven layout and smooth UI interactions.
Live demo here : <https://nova-ai-jet-ten.vercel.app>
