PROFESSIONAL SUMMARY

Final-year Computer Science student (CGPA 4.84) and full-stack developer with front-end experience at Tiplogo Nigeria Limited, an agency industrial training placement at Lesgilles IT Solutions, and current freelance/contract work delivering production web applications in React, Next.js, Angular, Node.js, MongoDB, and Firebase. Delivered a live e-commerce and service-booking platform for a real client, alongside several self-built full-stack products taken from design through deployment. Comfortable owning a feature end-to-end — UI, API, database, and hosting. Seeking remote junior/mid-level full-stack roles or contract work.

TECHNICAL SKILLS

Frontend: Next.js, React.js, Angular (Signals), TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Bootstrap

Backend: Node.js, Express.js, RESTful APIs, JWT Authentication, Socket.io

Database & Cloud: MongoDB, Mongoose, Firebase, Firestore

State Management: Redux Toolkit, Zustand

Tools & Deployment: Git, GitHub, Postman, Figma, Vercel, Render, Railway, Netlify

EXPERIENCE

Full-Stack Developer (Freelance)

2026 — Present

TelexTech (Self-employed)

- Take on contract work building web and mobile applications for clients, from requirements through deployment.
- Designed and built Kayzee Global Computer Networks, a live e-commerce and repair-booking platform for a laptop sales/repair business, including a product shop, cart, and service-booking flow, deployed on Vercel.
- Built and deployed full-stack web applications end-to-end — from responsive React/Angular UIs to REST APIs and Firebase/MongoDB-backed services — for personal and client use cases spanning business, education, and SaaS.
- Own the full project lifecycle independently: requirements definition, UI design, backend architecture, and deployment to Vercel, Render, and Netlify, with version control via GitHub.
- Pursuing additional contracts via Upwork, focused on automation and full-stack web development.

Full-Stack Developer (Industrial Training)

Mar 2025 — Sep 2025

Lesgilles IT Solutions — Software Development Agency

- Contributed to client web and mobile applications built with Angular, Ionic, and Firebase during a six-month industrial training placement.
- Worked within an agency team on company projects.

Front-End Developer

2022 — 2023

Tiplogo Nigeria Limited

- Built the company website (tiplogo.net) covering its business lines: seafood, logistics, LED lighting, ICT equipment, and a CBT services center.
- Built a standalone computer-based testing (CBT) application for students writing exams online.

KEY PROJECTS

Kayzee Global Computer Networks — E-commerce & Repair Booking | [Next.js](#) · [React](#) · [Vercel](#) — kazy-systems.vercel.app

- Live client site for a laptop sales and repair business — product shop with filtering/sorting, cart, and a repair-service booking flow.

Tiplogo Nigeria Limited — Company Website | [HTML/CSS](#) · [JavaScript](#) — tiplogo.net

- Live multi-business company site covering seafood, logistics, LED lighting, ICT equipment, and CBT services.

Booking & Appointment System | [React.js](#) · [MongoDB](#) · [Express.js](#) · [Node.js](#) — booker-sigma.vercel.app

- Appointment scheduling web app for small businesses (clinics, salons, consultants) with booking, email notifications, authentication, and a calendar UI.

Tech Blogging Platform | [Next.js](#) · [Tailwind CSS](#) · [Firebase](#) — telex-blog.vercel.app

- Full-stack blogging platform with an admin panel for creating, editing, and publishing posts, Firebase authentication, and a responsive reading experience.

EDUCATION

B.Sc. Computer Science — Olusegun Agagu University of Science and Technology (OAUSTECH)

Final-year student • CGPA: 4.84
